Art Unit: 1746

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 17, 20, 22, 23, 31-37, 40, 41, 43 and 45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakajima et al. U. S. Pat. No. 5,571,367) in view of Degendt et al. (2002/0011257).

Re claims 17, 34, and 43 Nakajima disclose the cleaning and drying of a workpiece comprising heating the water in the vessel, introducing ozone gas, and rinsing the workpieces that differs from the claim only in the recitation of treating a batch of workpieces, drying with an organic solvent and the bubbling of the ozone. Degendt discloses the batch of wafers (paragraph 0077) the organic solvent (incorporated via U. S. Pat. No. 5,181,985 Lampert et al.) and the bubbling of the ozone(paragraph 0076). It therefore would have been obvious to one having ordinary skill in the art to modify the process to treat a batch, employ an organic solvent and bubble the ozone as taught by Degendt, for the purpose of ensuring complete removal of contaminants as is common in the art. Re claim Nakajima discloses the fresh water overflow.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Okuchi et al., Carter et al., Koizumi et al., and Imaoka et al., note the wafer treating processes.

4. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 1746

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
